About the Top Award-Winners

All top Award-Winners were selected for their artistic excellence in their chosen mediums and for the insightful artist's statements that accompanied their submissions. Additionally, each artist exemplifies a strong professional commitment to having produced a powerful body of work.

The three top Special Recognition Cash Award Winners — Susanne Buckler, Mary Lou Dauray and Dana Klein — were chosen because they use their art as a catalyst to raise awareness about important issues. They serve as inspiring role models for all of us.

"HERStory 2016" is an initiative to bring the art created by outstanding women artists to larger audiences and give them the recognition they deserve.

Susanne Buckler, Vagina Dialogs/ Love is More Important Than Sex/Triptych, inkjet on silk and paper, 17" x 22". Larger sizes available.

I endeavor to empower and unite women of all ages and ethnicities by revealing them from both the inside and out. These images show stages of transformation from the real to the ethereal. My collaborations with the women I photograph and videotape establish a common ground between us in which to share what is often kept inside.
